

Product Introduction:

Q58001 Portable label printer uses the more capacity of 1400mAh battery, one time charging can use longer time, and which has larger paper warehouse, adopting the new process of lithium batteries
32-bit ARM CPU makes label printer can be printed with high speed.

Application Area:

Logistics, the traffic police, postal service, urban management, tobacco, meter, supermarket, clothing etc.

Specification	Blue Tooth Printer
Print Method	Line direct thermal printing
Carriage Paper Width	80mm
Contour Dimension	120*100*50mm
Printing line width	24 Chinese characters/line 48 English characters/line or 36 Chinese/line 72 English characters/行
Chinese character coding method	GBK
The built-in dictionaries	ASCII dictionary(12*24 8*16) GBK(24*24 16*16)

PANDA Electronics Limited

	(12X24,8X16)GBK
Printing Speed	60MM/S
Printing machine core life	50KM(25%printing density or below)100million puises)/
Print Content	English、Figure、Symbols、Chinese
Resolution	8 point/mm
Data Communication Interface	Serial Port(RS232C) Blue Tooth(BLUETOOTH)
Wireless communication parameters	Bluetooth V2.0
Battery	Li-On rechargeable
Charge Mode	Standby charging
Anomalous Detection anomalous	Lack of paper detection, electricity shortage detection
Positioning Function	black mark positioning
Outfit paper way	clam shell outfit paper
Paper cutting way	Manual tearing
Instruction set	ESC/POS Compatible instruction set
Standard Accessories	Long-acting thermal papers、C-LCM、Charger、Battery
Optional Accessory	Special serial data cables, Special Charger
